

Drawing Amendments

Pursuant to revised 37 CFR 1.121, drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the Drawing Amendments section or in the Remarks section of the Amendment.

The Examiner requested that the blank boxes in Figure 1 be labeled in a manner consistent with the specification for ease of reference. Applicants present a replacement Figure 1 which is identified in the top margin as "Replacement Sheet". Pursuant to 37 CFR 1.121(f), no new matter has been added.

REMARKS

It is believed that the amendments submitted herein embody merely the correction of formal matters in the specification or drawing. These amendments are necessary for proper disclosure of the invention, and require no substantial amount of additional work on the part of the Office. The errors in Equation 1 are clearly typographical in nature and one skilled in the art of gas synthesis would easily determine the error to be an obvious error. The general Fischer-Tropsch reaction is correctly stated as

and a skilled artisan would recognize the reaction as such. The description preceding Equation 2 is supported by the original disclosure at page 11, lines 16-19, wherein ammonia is produced from hydrogen recovered from the syngas production and the FT tail gas and nitrogen from the air separation unit. The amendments were regrettably not submitted earlier due to inadvertent oversight, which occurred without bad faith, intentional misconduct or deceptive intent. The errors in the specification became evident upon Applicants' preparation of the issue fee transmittal. The drawing changes have been submitted pursuant to the Examiner's Amendment to avoid abandonment of the application.

The amendments submitted herein are filed concurrently with the issue fee. Applicants respectfully request the Office to enter the amendments submitted after Notice of Allowance.

Respectfully Submitted,

Aileen Law, Reg. No. 51,923
